THE GREENVILLE & LAUEENS BAIL-

The vote upon the proposition for the sum of fifty thousand dollars by taxation to the capital stock of the Greenville & Laurens Railroad came off on last Saturday, and resulted in a very small majority-272 votes-in favor of the subscription. The contest in the country was the vote stood 566 for subscription to 1476, a majority of 810 against the subscription. In the city of Greenville the vote stood 1217 for subscription to 135 against, a majority of 1082 for subscription. The majority, therefore, was obtained by a very large city vote. With the new condition of things incident to the consolidation of the Air Line and Columbia & Greenville management under the new lease, Greenville no doubt feels the want of a new railroad line to secure competition in freights, but exactly where the outlet is to be had has not yet been found. The new road will hardly be built unless some new combination can be formed by which a competitive route can be established.

LEASE OF THE AIR LINE BAILROAD.

The most important event that has occurred in the railroad world in South Carolina since the sale of the Greenville & Columbia Railroad to the Clyde syndicate of New York, was announced in The Richmond & Danville combination, which is the Clyde Company, and the Baltimore & Ohio Company, have each for many months past had a jealous eye upon the Air Line road, and each of them has been endeavoring to effect a lease of the road, but without avai! until last Monday the contract was closed, leasing the coveted road to the former Company upon the guarantee that they will pay the interest upon the bonded debt, and five per cent. per annum upon the stock of the Air Line Company. Possession is to be given on the second day of April, and the lessors put up a bonus of half a million dollars as a guarantee of the faithful discharge of their contract. After the lease had been affected, the Baltimore and Ohio Company offered to duplicate the contract with a provision for six per cent, instead of five upon the stock of the Air Line. They were, however, too long in reaching their conclusion, and their rivals have borne off the prize. The Air Line is a valuable road. Four years ago its bonds sold for thirty cents on the dollar and its stock was worthless, while now its bonds are worth \$1.07, and its stock sold on last Saturday at 701 cents on the dollar. This is due to the wise and efficient management of Col. G. J. Foreacre, the Superintendent of the road, and to the financial skill of Mr. Sibley, of New York, its President. The road has been greatly improved, and is now in every respect a desirable property. The effect of the lease will be very great in the commerce of the up-country, and probably of the whole State. The Clyde combination now control the whole of the important roads in the State, except the Northeastern, Savannah & Charleston, and the South Carolina roads, which enables them, to a very large extent, to control the commerce of South Carolina, which they will naturally do in the interest of New York, to which point their lines converge from Charleston, Wilcommerce of the up-country, and problines converge from Charleston, Wil-mington, Norfolk and Richmond.

The local effect of the lease will perhaps be more perceptible than its general result upon our commerce. It completely destroys the competition which has existed at Seneca, Greenville, Spartanburg and Gaffney's, and places those points in the hands of a monopoly, which will deprive them of the advantages they have enjoyed over neighboring towns, and cause them to compete upon equal terms for the trade which they may have. There is the entire absence of motive for any discrimination in favor of these points by the present lessees, and it may be safely assumed that from this time forward the discriminations will cease. As to the policy to be pursued by the managers of the combined lines nothing is known, though there are rumors of an intended increase of freight rates all around, while there is also a report that still further reductions are to be made. Which is correct will only be shown by time, though we apprehend shown by time, though we apprehend that no serious deflection of rates either up or down will be adopted, except in equalizing the rates by an increase at points which may have been too low heretofore in consequence of competition, which is now removed. From a local standpoint, we regard the new lease as a fortunate one, which will greatly benefit the business of Anderson by placing ex in as good position as any of our neighbors for this increase at ten men for threatening to burn a man's house on the sheriff undertook to arrest ten men for threatening to burn a man's speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on last Monday upon Virginia politics and Mahone gave the Senate a four hours' speech on of our neighbors for shipping or receiving freights.

IMMIGRATION.

The work of immigration to South Carolina is being successfully pushed forward by the Agricultural Department of this State. Col. A. P. Butler, the Commissioner of Agriculture, who is temporarily in charge of the matter, has introduced and settled in different parts of South Carolina over one hundred German amilies since the first of January, and is continuing the work in a most successful and promising manner. The various railroads have made very low rates of transportation, and are thereby Columbia & Greenville, the Wilmington, Columbia & Augusta; the Northeastern, and the Cheraw & Darlington railroads New York for \$10. AN IMPIGUS EXTREME.

The temperance enthusiasm in Kansas has culminated in the passage of a total abstinence act, which has overstepped the bounds of Christianity, and is better calculated to delight the followers of Robert Ingersoll than those of the Holy Saviour. In the name of morality they have perpetrated a glaring implety in that, among other things, the Act prohibits the use of wine in the Sacrament, and punishes the minister who administers it with two years' imprisonment in the penitentiary, and shuts up the church as a public nuisance. All of this is done in the cause of temperance, and illustrates the unholy extremes to which the enthusiasm of men in a good cause may carry them. The law, of course, cannot be enforced, for the religious sentiments of the people cannot permit such an interference with one of the chief ordinances of revealed religion. The Rev. Dr. Beatty, rector of the Episcopal Church at Lawrence, announced his determination to continue the ordinance in his Church, and said: "We are willing to render unto Cæsar the things which are Cæsar's, but we will still give to God the things that are His. I say, as did Peter, 'Judge ye whether we should obey men rather than God.' Of one thing you may be assured, we shall never recognize for a moment the attempts of human legislation to destroy the great Sacrament of the Christian Church."

The Way to the Northwest.

From the Spartanburg Herald.

The sale of the Spartanburg and Asheville Railroad, on the first Monday in April, offers a fine opportunity for capitalists to secure a link in what will be, at no distant day, one of the most important railroad lines in this country—the shortest line from the Northwest to the Atlantic coast. From some ramors in circulation the railroad magnates seem to be on the alert, and we may expect there will be lively bidding at the sale. It is surmized that the following important railroad and steamship companies will have representatives here on the occasion:

During the entire term of Mr. Hayes there were a number of Republican sentors and members who never called at the White House at all, and there were no Democratic senators or members who no Democratic senators or members who called, except a few from the South who wanted office for their friends. There wanted office for their friends. There were not a few who never even would accept the formal evening invitations to the White House, and it is certain that there was not one day of Mr. Hayes' sojourn in the White House that his disputed right of tenure of office did not fling its shadow across his path. But the new President, who has always been parsonally one of the most reconstruction. personally one of the most popular pub-lic men who ever came to Washington, is called upon daily by the most distin-guished of the Democrats, and many of them with no axes to grind, but simply to testify their respect and regard."
